

MotorSport Manual

This is an annual publication which, along with separately issued Schedules and Handbooks for specific classes, contains all you will ever need to know about the rules and organisation of motorsport in NZ.

Over the years, as motorsport has developed, rules and regulations have been upgraded to maintain a set of technical standards and to ensure maximum safety levels within the sport. All these regulations are clearly set down in the Manual and are revised as and when required. The MotorSport Manual and the separate publications issued in conjunction with the Manual, contain information about Championships and their winners, the Executive and Officials and how to

contact them should you require specialist assistance, a list of affiliated Car Clubs, their addresses and means of contact.

It also contains the National Sporting Code and all the technical/safety information you will require to build/prepare a vehicle for the type of competition you wish to participate in.

If you have any queries regarding the sport that you cannot readily find the answer to in the Manual, there is always the National Headquarters Office in Wellington where you can telephone, fax or email someone who will be pleased to assist you.
